

# PRODUCT DATASHEET

## DR DALI-P -30/220-240/700 OEM

LED DRIVER DALI PERFORMANCE GEN 3 | Compact constant LED driver with DALI dimming interface

### Areas of application

- Luminaires of protection class I and II
- Indoor SELV installations
- Suitable for LED T5 FC EXTERNAL P
- Emergency lighting systems (DC capable)
- Cove lighting
- Offices
- Education
- Storage areas

### Product benefits

- Flexible dip switch current settings on device in 50mA steps
- DALI-2 certified incl. Parts 251, 252, 253
- Push DIM application for easy control
- Low flickering enables high light quality as well as good visual comfort
- High-quality dimming of 1...100 %
- Toolless installation

### Product features

- 1 channel DALI-2 certified LED driver
- Available with output current range: from 150...1,050 mA
- Type of installation: independent and built-in
- Suitable for emergency lighting fixtures acc.to EN 60598-2-2 with emergency output factor EOFI=15%
- Quick and easy current setting via Dip-Switch
- Very long lifetime: up to 100,000 h
- Supply voltage: 220...240 V
- Operated with Safety extra-low voltage (SELV): < 60 V

## TECHNICAL DATA

### Electrical data

|                                          |                                                                                                                         |
|------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Nominal output power                     | 30 W                                                                                                                    |
| Nominal voltage                          | 220...240 V                                                                                                             |
| Nominal output voltage                   | 2.5...49 V                                                                                                              |
| Input voltage AC                         | 198...264 V <sup>1)</sup>                                                                                               |
| Input voltage DC                         | 198...264 V                                                                                                             |
| U-OUT (working voltage)                  | 60 V                                                                                                                    |
| Type of current                          | DC                                                                                                                      |
| Nominal current                          | 200 mA                                                                                                                  |
| Nominal output current                   | 150 mA / 200 mA / 250 mA / 300 mA / 350 mA / 400 mA / 450 mA / 500 mA / 550 mA / 600 mA / 650 mA / 700 mA <sup>2)</sup> |
| Inrush current                           | 5.13 A                                                                                                                  |
| Output current tolerance                 | +/- 5 %                                                                                                                 |
| Output ripple current (120 Hz)           | +/- 3.0 %                                                                                                               |
| Mains frequency                          | 0/50/60 Hz                                                                                                              |
| Total harmonic distortion                | 5 % <sup>3)</sup>                                                                                                       |
| Power factor $\lambda$                   | > 0.95 <sup>3)</sup>                                                                                                    |
| ECG efficiency                           | 89 %                                                                                                                    |
| Device power loss                        | 3.7 W                                                                                                                   |
| Max. ECG no. on circuit breaker 10 A (B) | 40                                                                                                                      |
| Max. ECG no. on circuit breaker 16 A (B) | 64                                                                                                                      |
| Max. ECG no. on circuit breaker 25 A (B) | 100                                                                                                                     |
| Max. ECG no. on circuit breaker 32 A (B) | 128                                                                                                                     |
| Max. ECG no. on circuit breaker 10 A (C) | 40                                                                                                                      |
| Max. ECG no. on circuit breaker 16 A (C) | 64                                                                                                                      |
| Max. ECG no. on circuit breaker 25 A (C) | 100                                                                                                                     |
| Max. ECG no. on circuit breaker 32 A (C) | 128                                                                                                                     |
| Surge capability (L/N-Ground)            | 2 kV                                                                                                                    |
| Surge capability (L-N)                   | 1 kV                                                                                                                    |
| Galvanic isolation                       | SELV                                                                                                                    |
| Operating frequency                      | 0/50/60 Hz                                                                                                              |
| Power loss in stand-by mode              | ≤0.3 W                                                                                                                  |

1) Permitted voltage range

2) +/- 5 %

3) Full load at 230 V/50 Hz

### Dimensions & Weight

|                                      |                           |
|--------------------------------------|---------------------------|
| Length                               | 105.00 mm                 |
| Mounting hole spacing, length        | 97,0 mm                   |
| Width                                | 45.00 mm                  |
| Height                               | 25.00 mm                  |
| Cable cross-section, input side      | 0.5...1.5 mm <sup>2</sup> |
| Cable cross-section, output side     | 0.5...1.5 mm <sup>2</sup> |
| Prewired                             | No                        |
| Wire preparation length, input side  | 7...9 mm                  |
| Wire preparation length, output side | 7...9 mm                  |
| Product weight                       | 98.00 g                   |

Colors & materials

|                 |         |
|-----------------|---------|
| Product color   | White   |
| Casing material | Plastic |
| Body material   | Plastic |

Temperatures & operating conditions

|                                          |              |
|------------------------------------------|--------------|
| Ambient temperature range                | -20...+45 °C |
| Maximum temperature at tc test point     | 85 °C        |
| Max.housing temperature in case of fault | <110 °C      |
| Temperature range in operation           | -20...+45 °C |
| Permitted rel. humidity during operation | 20...90 %    |

Lifespan

|                            |                        |
|----------------------------|------------------------|
| ECG lifetime               | 100000 h <sup>1)</sup> |
| Number of switching cycles | 60000                  |

1) At Tc max. - 10°C

Additional product data

|              |     |
|--------------|-----|
| Encapsulated | Yes |
|--------------|-----|

Capabilities

|                                        |                   |
|----------------------------------------|-------------------|
| Dimmable                               | Yes               |
| Dimming interface                      | DALI-2 / Push-DIM |
| Dimming range                          | 1...100 %         |
| Overheating protection                 | Yes               |
| Overload protection                    | Yes               |
| No-load proof                          | Yes               |
| Short-circuit protection               | Yes               |
| Max. cable length to lamp/LED module   | 0,8 m             |
| Suitable for fixtures with prot. class | I / II            |
| Suitable for emergency lighting        | Yes               |
| Type of connection, output side        | Push terminal     |

### Certificates & Standards

|                           |                                                                                                                               |

### LOGISTICAL DATA

|                              |              |
|------------------------------|--------------|
| Temperature range at storage | -20...+80 °C |
|------------------------------|--------------|

### Accessories Optional

| Product image                                                                      | Product name           | EAN           |
|------------------------------------------------------------------------------------|------------------------|---------------|
|  | DR AY DALI-P CLAMP DUO | 4099854400605 |

### EQUIPMENT / ACCESSORIES

- Cable clamps for independent operation

### Safety advice

- All electrical connections must be made by a qualified person.
- Caution, risk of electric shock.
- Disconnect mains before installation.
- Do not open enclosure-housing.
